Parent Technique:
AML.T0000

Maturity:
Feasible

Created:
2021-05-13

Modified:
2025-04-09

Description

Many of the publications accepted at premier artificial intelligence conferences and journals come from commercial labs.

Some journals and conferences are open access, others may require paying for access or a membership.

These publications will often describe in detail all aspects of a particular approach for reproducibility.

This information can be used by adversaries to implement the paper.
