MITRE ATLAS | AML.T0018.000 - Poison AI Model

Entry Information

ID:
AML.T0018.000

Type:
Sub-Technique

Name:
Poison AI Model

URL:
https://atlas.mitre.org/techniques/AML/T0018/000/

Parent Technique:
AML.T0018

Maturity:
Demonstrated

Created:
2021-05-13

Modified:
2025-12-23

Description

Adversaries may manipulate an AI model's weights to change it's behavior or performance, resulting in a poisoned model.
Adversaries may poison a model by directly manipulating its weights, training the model on poisoned data, further fine-tuning the model, or otherwise interfering with its training process.

The change in behavior of poisoned models may be limited to targeted categories in predictive AI models, or targeted topics, concepts, or facts in generative AI models, or aim for a general performance degradation.
