MITRE ATLAS | AML.T0043.003 - Manual Modification

Entry Information

ID:
AML.T0043.003

Type:
Sub-Technique

Name:
Manual Modification

URL:
https://atlas.mitre.org/techniques/AML/T0043/003/

Parent Technique:
AML.T0043

Maturity:
Realized

Created:
2021-05-13

Modified:
2021-05-13

Description

Adversaries may manually modify the input data to craft adversarial data.

They may use their knowledge of the target model to modify parts of the data they suspect helps the model in performing its task.

The adversary may use trial and error until they are able to verify they have a working adversarial input.
