MITRE ATLAS | AML.T0084.002 - Activation Triggers

Entry Information

ID:
AML.T0084.002

Type:
Sub-Technique

Name:
Activation Triggers

URL:
https://atlas.mitre.org/techniques/AML/T0084/002/

Parent Technique:
AML.T0084

Maturity:
Demonstrated

Created:
2025-09-30

Modified:
2025-09-30

Description

Adversaries may discover keywords or other triggers (such as incoming emails, documents being added, incoming message, or other workflows) that activate an agent and may cause it to run additional actions.

Understanding these triggers can reveal how the AI agent is activated and controlled. This may also expose additional paths for compromise, as an adversary could attempt to trigger the agent from outside its environment and drive it to perform unintended or malicious actions.
