MITRE ATLAS | AML.T0004 - Search Application Repositories

Entry Information

ID:
AML.T0004

Type:
Technique

Name:
Search Application Repositories

URL:
https://atlas.mitre.org/techniques/AML/T0004/

Tactics:
AML.TA0002

Maturity:
Demonstrated

Created:
2021-05-13

Modified:
2025-10-13

Description

Adversaries may search open application repositories during targeting.
Examples of these include Google Play, the iOS App store, the macOS App Store, and the Microsoft Store.

Adversaries may craft search queries seeking applications that contain AI-enabled components.
Frequently, the next step is to [Acquire Public AI Artifacts](/techniques/AML.T0002).
