MITRE ATLAS | AML.T0005 - Create Proxy AI Model

Entry Information

ID:
AML.T0005

Type:
Technique

Name:
Create Proxy AI Model

URL:
https://atlas.mitre.org/techniques/AML/T0005/

Tactics:
AML.TA0001

Maturity:
Demonstrated

Created:
2021-05-13

Modified:
2025-04-09

Description

Adversaries may obtain models to serve as proxies for the target model in use at the victim organization. Proxy models are used to simulate complete access to the target model in a fully offline manner.

Adversaries may train models from representative datasets, attempt to replicate models from victim inference APIs, or use available pre-trained models.
