MITRE ATLAS | AML.T0018 - Manipulate AI Model

Entry Information

ID:
AML.T0018

Type:
Technique

Name:
Manipulate AI Model

URL:
https://atlas.mitre.org/techniques/AML/T0018/

Tactics:
AML.TA0006, AML.TA0001

Maturity:
Realized

Created:
2021-05-13

Modified:
2025-04-14

Description

Adversaries may directly manipulate an AI model to change its behavior or introduce malicious code. Manipulating a model gives the adversary a persistent change in the system. This can include poisoning the model by changing its weights, modifying the model architecture to change its behavior, and embedding malware which may be executed when the model is loaded.
