MITRE ATLAS | AML.T0046 - Spamming AI System with Chaff Data

Entry Information

ID:
AML.T0046

Type:
Technique

Name:
Spamming AI System with Chaff Data

URL:
https://atlas.mitre.org/techniques/AML/T0046/

Tactics:
AML.TA0011

Maturity:
Feasible

Created:
2021-05-13

Modified:
2025-12-18

Description

Adversaries may spam the AI system with chaff data that causes increase in the number of detections. This can cause analysts at the victim organization to waste time reviewing and correcting incorrect inferences.

Adversaries may also spam AI agents with excessive low-severity auditable events or agentic actions that require a human-in-the-loop, wasting time for the victim organization in human review of the agentic AI system.
