https://atlas.mitre.org/techniques/AML/T0058/

Tactics:
AML.TA0003

Maturity:
Realized

Created:
2025-03-12

Modified:
2025-03-12

Description

Adversaries may publish a poisoned model to a public location such as a model registry or code repository. The poisoned model may be a novel model or a poisoned variant of an existing open-source model. This model may be introduced to a victim system via [AI Supply Chain Compromise](/techniques/AML.T0010).
