MITRE ATLAS | AML.T0082 - RAG Credential Harvesting

Entry Information

ID:
AML.T0082

Type:
Technique

Name:
RAG Credential Harvesting

URL:
https://atlas.mitre.org/techniques/AML/T0082/

Tactics:
AML.TA0013

Maturity:
Demonstrated

Created:
2025-09-30

Modified:
2025-09-30

Description

Adversaries may attempt to use their access to a large language model (LLM) on the victim's system to collect credentials. Credentials may be stored in internal documents which can inadvertently be ingested into a RAG database, where they can ultimately be retrieved by an AI agent.
